Hornet Hatchback "X"

"LUSTRE-GUARD" ENAMEL

This durable baked acrylic enamel finish, plus "Deep-Dip" rust-proofing prior to painting, assure long life beauty for all 1975 AMC cars. A TWO-TONE option is offered on Hornet Sedans & Hatchback and Matador with an Alpine White (G-7) roof with any available body color. Several unique two-tone combinations are also offered on the Pacer.

"BRAVADO" GRAIN VINYL-COVERED ROOFS

This bold coarse-grain vinyl—in either Black, Blue, Brown, Buff, Copper (Cassini only), Berry, Green, Tan, or White—contrasts and complements the body color for a look of luxury. Available on Gremlin, Hornet Sedans, Hatchback & Sportabout (Touring Package only), and Matador Coupe & Sedan. Consult your dealer for vinyl roof color availability on specific models.

WOODGRAIN

Walnut tone Woodgrain side and rear panels are part of the optional D/L package on Hornet Sportabout Wagons and optional on all Matador Wagons. The Woodgrain side panels are also available as a separate option on Hornet Sportabout Wagons.
